Collection Development

Stephen B. Luce Library's primary collection development objective is to obtain material that supports the curriculum taught at SUNY Maritime College and the research needs of the students, faculty, and staff. Therefore, selection and acquisition of material are focused on providing access to items that are relevant to the instructional and research programs of the college. Input from library users is an important aid in building the collection and all users are invited to make purchase

recommendations. Factors influencing the selection of items include:

- Relevance to the educational programs of the college.
- Balance of resources in the collection.
- Representation of all viewpoints for controversial issues.
- Professional reviews.
- Representation of a diversity of religious, ethnic, and cultural groups.
- Duplication of resources.
- Available format.
- Availability of funds.

Identifying appropriate research materials is a cooperative venture of the library staff and faculty members. When an assessment is being conducted of a specific academic area, the faculty of that area will be asked to work with librarians to assess and enhance the resources in that subject specialty.

In addition to supporting the curriculum taught at SUNY Maritime College, the Library also has a secondary objective to obtain some materials that support the leisure activities of students, faculty and staff. Therefore, the selection and acquisition of popular fiction, best sellers, and movies is a continuous process. Input from library users is an important aid in building a carefully-selected leisure collection, and library users are invited to make purchase recommendations. Factors influencing the selection of leisure items include:

- Professional reviews.
- Popularity of items as evidenced by polls, best seller lists, awards/prizes, or sales.
- Duplication of resources.
- Available format.
- Availability of funds.

Withdrawals/Weeding

It is the policy of the Stephen B. Luce Library to keep an up-to-date and useful collection through a continuous withdrawal and replacement process. Criteria for determining which items need to be weeded include:

- Duplication of material.
- Age of material/availability of newer editions.
- Physical condition.
- Usefulness.
- Current demand.
- Relevancy of content, style, or theme.

Collection Concerns

Users with a complaint about an item in the collection are welcome to submit their concerns in writing. A committee of library staff members will review the complaint and the item in question and make a recommendation to the Library Director as to the disposition of the item. The complainant will be notified of the decision in a written response.

Library Events

Library Lecture Series

The Library Lecture Series presents a wide variety of topics and genres through discussions and presentations that further the Library's mission to stimulate creativity and intellectual curiosity among the SUNY Maritime community. Because the lecture series is designed to allow for a wide range of topics library staff receive a large volume of requests throughout the year. Unfortunately, the Library cannot honor all requests for events to be part of the lecture series.

The Library will host a maximum of five lecture series events per semester. The Library will determine which events will be included as part of the lecture series.

Faculty, staff, and students of SUNY Maritime College may recommend speakers and/or topics for the lecture series. Recommendations must be made a minimum of one semester in advance and must be submitted electronically at <https://goo.gl/forms/ySRJQFMcuDBJqWn13>.

A recommendation does not guarantee acceptance as part of the lecture series.

The Library will not pay any speaker fees, honorariums, or travel costs for speakers. Submissions including such costs will not be accepted unless the submitter supplies proof that such fees will be covered at the time the proposal is submitted.

Recommendations will be evaluated for the following:

- Appropriateness of topic
- Currency of topic
- Calendar availability

- Availability of funds

The Library will notify individuals by email whether their suggestion was accepted within 10 business days after the submission date.

Proposals accepted for the lecture series may be rescheduled or cancelled at the Library's discretion.

Library staff will handle all logistics and marketing for any lecture series events.

Individuals whose proposals were not accepted as part of lecture series are welcome to hold the event in accordance with the policies in the "Use of Event Space" section of this document.

Use of Library Event Space

The Library makes Bay 4 available for use by faculty, staff, and students to host events.

Use of Bay 4 is on a first come, first served basis.
