Scholarship Spotlight **18**

Financial Overview **21**

Honor Roll of Donors **25**

I am pleased to present to you SUNY Maritime College's annual report for the 2013-2014 academic year. Although I did not arrive on campus until after the year had concluded, clearly, it was a year of great accomplishments as the following pages will attest. The entire College community has laid a firm foundation upon which to build a great future.

In looking forward, Maritime College will continue to be defined by its student centeredness, focused on a commitment to our students' success, both here at Maritime and in their careers. We must always ensure that student learning remains at the center of our applied learning activities, such as Summer Sea Term, labs, and internships. We also must develop innovative programs in order to grow our enrollment beyond our current capacity, while remaining within the limits of our current footprint. Moreover, we must remain committed to a climate and culture that is outwardly focused, collaborating and partnering closely with other SUNY campuses, our alumni, and our industry partners.

The campus must continue to be intentional in our efforts to increase the gender, racial, ethnic and socio-economic diversity of the campus, and we must be respectful of other viewpoints and perspectives.

I thank the College's outstanding faculty and staff for their continued dedication. They care deeply about our students and about the College. Many of their personal and professional accomplishments are noted within this report.

To our alumni, industry partners, and friends, I say thank you for your ongoing support of the College and of our students. Your generosity in support of student scholarships, our academic programs and mission, and your willingness to help in a myriad of ways, is truly appreciated.

I look forward to working with each of you in the years ahead.

First and foremost,

A handwritten signature in blue ink that reads "Michael Alfultis".

RADM Michael A. Alfultis, Ph.D.

ACCREDITATION

SUNY Maritime College is accredited by the Middle States Commission on Higher Education, 3624 Market Street, Philadelphia PA. The Middle States Commission is an institutional accrediting agency recognized by the U.S. Secretary of Education and the Council for Higher Education Accreditation.

Additionally, several academic programs are accredited by external accreditation agencies.

Maritime's degree programs in Electrical Engineering, Facilities Engineering, Marine Engineering, Mechanical Engineering and Naval Architecture are accredited by the Accreditation Board for Engineering and Technology, Inc. (ABET); the recognized accreditor of college and university programs in applied science, computing, engineering, and technology. ABET accreditation demonstrates a commitment to quality education.

SUNY MARITIME COLLEGE 140 YEARS OF LEARNING & LEADERSHIP

In 1874, the New York Nautical School, as SUNY Maritime College was first known, began to shape the maritime industry that we know today. Hard work, rigorous training and specialized education were its hallmark.

Today, Maritime College honors that heritage of learning and leadership with the same attention to top-notch classroom learning, meaningful experiential training, and a culture of service over self, which helped build the maritime industry.

This year, the College celebrates its 140th Anniversary by paying tribute to its heritage and embracing its future.

Chancellor's Award for Excellence

Two Students, Brandon Baranyar '14 and Julia Paxton '14 were recognized by SUNY Chancellor, Nancy Zimpher, with the **Chancellor's Award for Student Excellence**, which recognizes students who have best demonstrated academic excellence with accomplishments in the areas of leadership, athletics, community service, creative and performing arts, campus involvement, or career achievement.

(L to R): Brandon Baranyar and Julia Paxton receiving the award from Chancellor Zimpher.

GARY BINGHAM '15

Marine Transportation
Hometown: Jacksonville, Florida

"During the past four years, I received the best training available anywhere. But I also understand that whether it is in a classroom, in a lab, or aboard a vessel, in our industry you never are done learning. Learning is forever.

(L to R): Jason Vega, Joseph Williams, Eric Johansson, Lu-Ann Plaisance, and Ernest Fink.

Five individuals were recognized by SUNY Chancellor, Nancy Zimpher, with the **SUNY Chancellor's Award for Excellence**. The Awards are conferred to acknowledge and provide recognition for consistently superior professional achievement and to encourage the ongoing pursuit of excellence. Through these awards, SUNY publicly proclaims its pride in the accomplishment and personal dedication of its instructional faculty, librarians, and professional staff.

Honored were:

CHANCELLOR'S AWARD FOR EXCELLENCE IN TEACHING

Captain Ernest J. Fink, USCG (Ret.), Dean of Maritime Education & Training and Chair, Professional Education & Training Department

CHANCELLOR'S AWARD FOR EXCELLENCE IN FACULTY SERVICE

Captain Eric J. Johansson, Professor of Marine Transportation and Executive Director of the Maritime Industry Museum at Fort Schuyler

CHANCELLOR'S AWARD FOR EXCELLENCE IN PROFESSIONAL SERVICE

Ms. Lu-Ann Plaisance, Director of Human Resources

CHANCELLOR'S AWARD FOR EXCELLENCE IN CLASSIFIED SERVICE

Mr. Jason Vega, Maintenance Supervisor

CHANCELLOR'S AWARD FOR EXCELLENCE IN LIBRARIANSHIP

Mr. Joseph A. Williams, Head of Technical Services & Assistant Library Director

SUNY Maritime College Receives Regional and National Recognition

Maritime was again ranked as a Best College in the Northeast by **The Princeton Review**. It is a particularly rewarding recognition each year, since the rankings are based upon reviews from those who know us best – our students. Maritime College is one of 226 outstanding colleges and universities from an 11-state region that *The Princeton Review* recommended to college applicants in its print and on-line editions.

The College was ranked as a **Military Friendly School** for 2014. This recognition acknowledges Maritime's commitment to providing a supportive environment for military students. The Military Friendly Schools designation honors the nation's top colleges, universities and trade schools that do the most to assist America's military service members, veterans, and spouses, and ensures their success.

U.S. News & World Report ranked SUNY Maritime a Top Tier Baccalaureate College in the North Region. *The U.S. News* ranking is based on key measures of academic quality, peer assessment, graduation and retention rates, faculty resources, student selectivity, financial resources and alumni giving.

According to **PayScale, Inc.**, the College was among the top dozen colleges in the nation with the highest return on investment. What differentiates the *PayScale, Inc.* report from the others is that it focuses on alumni outcomes.

SYDNEY CARELLA '15

Maritime Studies
Hometown: Greenville, New York

"I am very proud of, and honored by, the education that Maritime College has provided me. My education has given me confidence, endless opportunities, and I am ready to take on the world."

The Office of Admissions is committed to attracting and enrolling diverse, qualified students interested in Maritime College's nationally-ranked programs.

In fall 2013, the College received an increased number of applications, resulting in the enrollment of 337 freshmen, 87 transfers, and 45 graduate students. With a third of the incoming class awarded merit-based scholarships, the College experienced an increase to its academic profile.

Focusing on recruiting from maritime-related high schools, the Office of Admissions visited more than 200 high schools and community colleges throughout the Northeast; a significant increase from previous years.

Utilizing the latest technology for on-line applications and marketing, the College increased its visibility, and expanded student demographic and geographic reach, which resulted in a 7 percent increase in the total number of completed applications submitted to the College.

U.S. Student Enrollment 2013-2014

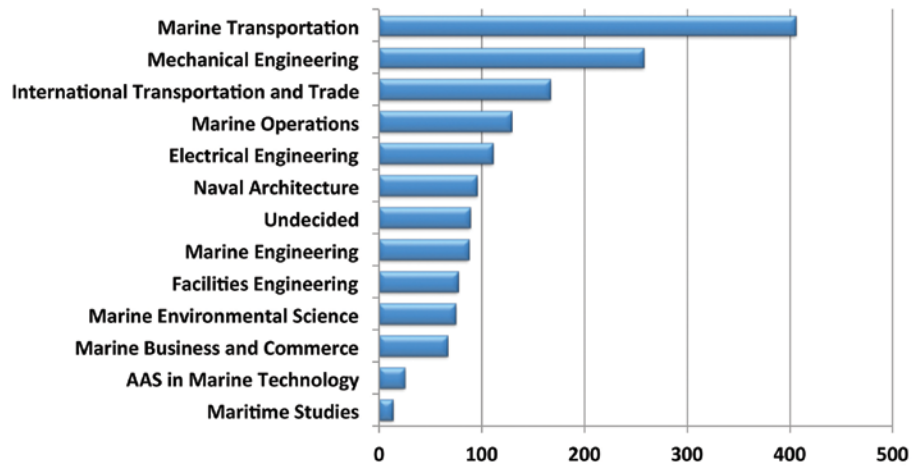

SUNY Bachelor of Engineering Degree

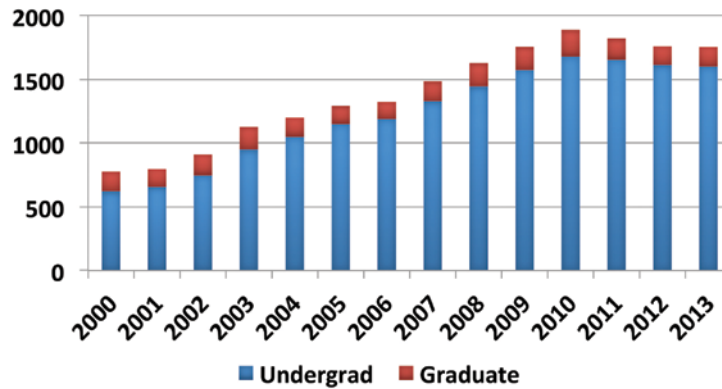

Despite having the smallest enrollment in the SUNY system, Maritime College annually produces 36% of the system's Bachelor of Engineering degrees.

Undergraduate Enrollment by Major

Total Enrollment Trends 2000-2013

International Student Enrollment 2013-2014

74 students representing 19 Nations

The 2013-14 academic year was one of transition at Maritime College. Following a change in presidents during the fall semester that saw Dr. Michael Cappeto installed as interim president, in January the College welcomed a new Provost and Vice President for Academic Affairs, Dr. Timothy G. Lynch. A former professor and department chair at California Maritime Academy, Dr. Lynch brings more than 15 years of higher education experience to Fort Schuyler. Dr. Lynch has outlined a vision to the campus' faculty that

includes increased support for faculty research, improved student retention and graduation rates, and continued excellence in teaching and learning.

News on the academic front were positive as key performance indicators continued to show improvement in both enrollment and in retention.

In addition to strong admissions, the first-to-second-year retention rate was 85 percent; the highest number in recent years. More than

"I studied Marine Environmental Science at Maritime College, while also participating in athletics, clubs, and on-campus employment. Those opportunities allowed me to develop professionally, and gave me the skills to not only find employment, but to excel at it."

MARITIME COLLEGE STATE UNIVERSITY OF NEW YORK

COMMENCEMENT 2014

The College celebrated its Spring Commencement on May 9, 2014. The ceremony was held in the St. Mary Pentagon, Fort Schuyler. Two hundred twelve students received degrees. An Honorary Doctor of Humane Letters was conferred upon John Ferriola '74, Chairman and CEO of NUCOR Corporation. During his remarks, Mr. Ferriola, who has had a 22-year career at NUCOR, told the graduates, "If you never fear failure, if you embrace teamwork, and if you sincerely appreciate the work your team does, I am certain that you will achieve great success in your careers."

one-quarter of the 1600+ undergraduates qualified for academic distinction, earning placement on the Dean's or Admiral's lists (term GPA of 3.0 and 3.5, respectively).

Enrollment data suggests strong interest in the college's programs among college-bound high school seniors, and the College continues to attract high-quality students from across the nation and around the world. (See geographic enrollment data maps on page 8-9).

The Marine Transportation Department installed a new RADAR/ Electronic Chart Display & Information System (ECDIS) lab, thereby doubling student capacity and alleviating overcrowding. The

Global Maritime Distress and Safety System (GMDSS) and tanker labs are once again in separate facilities.

Highlights of faculty scholarly and community achievements can be found on pages 12-13 in this report.

◀ *Interim President Michael Cappeto presents an honorary Doctoral Degree to John Ferriola '74.*

JOSEPH RUSSO '14

Instrumentation and Control systems at Knolls Atomic Power Laboratory
Hometown: Goshen, New York

"Maritime College has given me all the skills and knowledge I could ever need to excel in my career, and the leadership ability to do so. I am confident that everything I have learned during my time there will allow me to make a difference in society."

FACULTY HIGHLIGHTS

SCIENCE DEPARTMENT

Dr. Caterina Panzeca, the newest faculty member in Marine Environmental Science (MES), developed a new course for seniors *Field Methods in Environmental Science ES 451*. Designed as a capstone course, students implemented and executed a water quality monitoring program for the maritime waterfront area, which consisted of weekly collection and analysis of biological and chemical samples. The ES 451 class will continue monitoring with the goal of building a long-term data set that will allow students and the public to gain an understanding of the overall health of the East River and its environmental pressures.

Dr. Barbara Warkentine, biology professor, was awarded a grant from U.S. Environmental Protection Agency, entitled “Innovative Power Takeoff for Ocean Wave Energy Harvesting”. She received the grant with Drs. Kei Zuo and Xin Wang from SUNY Stony Brook University. Two Maritime students, majoring in Marine Environmental Studies, Ayannah Bright and Ashley Huck were selected as interns.

Mathematics Professor, **Conrad Linton**, is the Academic Coordinator of the \$1.8 million 21st Century Community Learning Center STEM Grant from the NYS Education Department. The three-year grant partners Maritime College with the Sports and Arts in Schools Foundation to deliver STEM education during after school activities at two area high schools, Banana Kelly and Jane Addams. Professor Linton works with Maritime student mentors to develop and deliver the STEM content to the high school students.

During the summer of 2014, **Dr. Debbie Yuster**, mathematics professor, held a position as a Visiting Data Science Scholar at News Corporation, the parent company of *The Wall Street Journal*. She used techniques from statistical inference and machine learning to mine *The Wall Street Journal's* vast amount of data and gain business insights about such issues as customer retention and loyalty, analysis of the effects of changes to their website, testing, and segmentation of articles and readers. She presented a talk entitled *Tower of Hanoi* at the Mathematics of Various Entertaining Subjects (MOVES) conference at the National Museum of Mathematics in New York. This past summer, Dr. Yuster completed her tenth year of teaching at Columbia University's summer high school program.

Dr. Marie de Angelis, oceanography professor, developed and implemented a protocol for safe and legal disposal of hazardous chemical waste for the Chemistry, Oceanography and Biology laboratories, in compliance with state and federal regulations regarding the disposal of laboratory waste.

Dr. Kathy Olszewski continues as the coordinator for the Dual Diploma Program Maritime College has with Istanbul Technical University Maritime Faculty. One-hundred-forty-six students have

graduated since the program began in 2004. In April, Maritime College hosted a dinner for the SUNY Partnerships in Turkey Program, as part of its annual international meeting, to celebrate the 10th anniversary of the Dual Diploma Program, which is helping to develop relationships between 11 SUNY campuses and seven Turkish universities.

ENGINEERING DEPARTMENT

Dr. Yaqub M. Amani, Electrical Engineering Leader had a paper entitled *Sustainable Small Scale Electric Power Generation and Microgrids*, accepted by GCGW-14 Global Conference on Global Warming, in Istanbul, Turkey. Dr. Amani volunteered at the Hudson Valley Islamic Community Center (HVICC), where he taught a dozen high school students how to use LED lights to build a solar system capable of lighting one classroom. The project is continuing on Saturdays, and will incorporate the use of solar-thermal systems for partial heating. Dr. Amani serves as a member of Board of Directors at HVICC.

Thirty-eight senior Mechanical Engineering Design students comprising nine teams, working under the guidance of **Dr. Joseph Levert**, held a design symposium during spring finals week. Each team presented the results of its design during a brief presentation, followed by an extended poster session. The students displayed their prototypes to the invited sponsors, fellow students, faculty, and administrators. Each of the nine design teams was sponsored by an external organization, representing a total commitment of \$6,000 for prototyping. Sponsors included: New York State Industries for the Disabled (NYSID) Project CREATE; U.S. Navy Port Hueneme Division of NAVSEA; and ConEd.

Project CREATE was developed to provide students with a service-learning experience while enabling people with disabilities to gain employment by applying assistive technology. Project CREATE is a collaboration between colleges, universities, NYSID and the member agencies of NYSID such as Goodwill of Greater New York and Northern New Jersey (GIGNY). Dr. Levert was the first university-level faculty collaborator with Project CREATE, and he was instrumental in its development.

Dr. Daniel Fridline, Assistant Professor of Mechanical Engineering, and **Dr. Neveen Shlayan**, Assistant Professor of Electrical Engineering, received a grant from the American Bureau of Shipping (ABS) to develop a program to inspect underwater drilling equipment and gather and maintain information about its structural well-being, all while the equipment remains in service and fully operational. They conducted their research with 10 undergraduate research assistants. It is hoped that the survey will provide information about the equipment's current state of structural health, establish a baseline survey, and provide information on specific locations where

more detailed inspection is required. ABS funded the two-phase study with \$22,209 in December 2013, and an additional \$42,906 in August.

HUMANITIES DEPARTMENT

Harris Eisenstadt, full-time Visiting Instructor in the Humanities department at Maritime, conducted research in Afro-Cuban and Maritime music in Cuba. The Faculty Student Association (FSA) sponsored the professional development grant. As a jazz drummer and composer, Eisenstadt performed at major international festivals and concert spaces.

Eisenstadt curates the *Music at Maritime* concert series, held on campus each semester since spring 2012, presenting a small ensemble in conjunction with HUMN 403 *History of Western Music* during the fall semester, and HUMN 405 *World Music* during the spring semester.

Dr. Julie Wosk's book *Breaking Frame: Technology, Art, and Design in the Nineteenth Century* was published in a new edition. She also completed writing her latest book, *My Fair Ladies: Female Robots, Androids, and Other Artificial Eves*, which now is in production at Rutgers University Press. Dr. Wosk also presented her lecture *How American and British Artists Captured the Excitement and Trauma of Living in a Rapidly-Mechanizing Society* at the New York Public Library's Main Branch, as part of the library's special lecture series. Wosk is a Professor of English, Art History and Studio Painting.

As a member of the Speakers in the *Humanities* program, sponsored by the New York Council for the Humanities, Dr. Wosk gave a talk at the New Rochelle Public Library on *Alluring Androids and Robots in Film, Photography and Art*. She also gave talks for Women's History Month at Maritime's Stephen B. Luce Library and at the Recologie Gallery in New Rochelle. One of her mixed-media paintings was chosen for exhibit in the juried exhibit *A Matter of Time* at the National Watch and Clock Museum, and one of her photographs was exhibited at the Rotunda Gallery in New Rochelle City Hall.

Casual Affairs: The Life and Fiction of Sally Benson, a biography written by **Associate Professor Maryellen Keefe, OSU, Ph.D.**, was released by SUNY Press. Sally Benson was a writer for the *New Yorker* in the 1930s, who published stories about her family in the magazine under "5135 Kensington."

MARINE TRANSPORTATION

Professor Anthony Palmiotti authored a navigation workbook *Navigators Workbook, a notebook for Marine Navigation*.

Professor Walt Nadolny and **Professor Jeff Spillane** are involved with the International Maritime Organization. Spillane is part of the United States delegation on the Human Element Committee, helping to draft standards for oil tanker training. Nadolny is a delegate to the Marine Environmental Protection Committee, where he represents the International Association of Maritime Universities and is involved in revisions to strengthen MARPOL, Ballast Water Management, and the draft Polar Code.

150 attended the WOMEN ON THE WATER Conference

More than 150 female cadets from all the state Maritime academies and the US Merchant Marine Academy, faculty members, alumni and industry partners participated in the three-day Women on the Water (WOW) Conference co-sponsored by MARAD and Conoco Phillips, that focused on "Jobs, Jobs, Jobs." Presentations included an overview of the current state of the shipping industry and also looked to the future. There were opportunities for seasoned professionals and women just starting out to learn about options for working on the water, what to expect when out at sea, and structured sessions for mentoring and networking. Participants received a behind the scenes tour and presentation from Captain James DeSimone '73, Chief Operations Officer, Staten Island Ferry, and heard speakers such as the Acting MARAD Administrator Joel Szabat, President of New York Water Taxi, Helena Durst and Joan Bondareff, currently of Counsel with Blank Rome and formerly Chief Counsel of MARAD.

The College's Regiment of Cadets remains strong and had a remarkable total of 339 students checking in for Indoctrination in August 2013. Two weeks later, more than ninety-six percent of them (326) successfully graduated. There were 296 young men and 30 young women within the ranks.

The Mariners Under Guidance (MUG) class that entered the Regiment did so with both higher SAT scores and academic grade point averages.

Total enrollment for the Regiment for the academic year stood at 1231; approximately 70% of the total student body population. Of those, 1,136 (92%) were full-time students; 95 (8%) were day students; 1,123 (91%) were men; and 108 (9%) were women.

One-thousand-fifty-eight cadets (94%) pursued a USCG License; 691 Deck and 467 Engine. Interns (non-licensed cadets) numbered 73 (6%).

The Regiment renewed its focus on volunteerism within the community by working with charitable organizations to rebuild/restore/renovate homes on Staten Island, which were damaged or destroyed by Hurricane Sandy. The Regiment also gave back to the community by donating decorated holiday trees to underprivileged families, by actively participating in the College's award-winning blood drives, and by conducting a winter coat drive.

LA'QUEY SMITH '16

Marine Transportation
Hometown: Grand Bahama,
Bahamas

"Maritime has taught me great values and skills. It has added to the foundation that already was instilled in me by my parents and my culture. The College has shown me how discipline is important even in the simplest aspect of our lives."

SUMMER SEA TERM

For a sixth successive year, *TS Empire State VI*, under the command of Captain Richard Smith '81, utilized a double session Summer Sea Term. The two sessions handled a total of 841 cadets, with 242 aboard the vessel for the full 90-day cruise.

Also on board were 32 cadets from Texas A&M Maritime Academy; 10 cadets from Maine Maritime Academy; and three cadets from Massachusetts Maritime Academy.

The first session began on Monday, May 12. Following domestic calls in Baltimore, MD, and Philadelphia, PA, *TS Empire State VI* made a trans-Atlantic crossing to Tenerife, Canary Islands, Spain, and later to the southern coast of Ireland in Cobh.

While in Ireland, 313 first-session cadets changed out with 286 second-session cadets. Following a brief familiarization training and acclimation to the shipboard routine, the *TS Empire State VI* sailed from Cobh to Copenhagen, Denmark.

During the call in Copenhagen, 50 Maritime cadets were welcomed at the World Maritime University, across the harbor in Malmo, Sweden, for a presentation on WMU's educational and capacity-building missions. That hospitality was returned the following day when 50 WMU students were invited to tour the *TS Empire State VI*.

Leaving Copenhagen, the ship made its final call in Lisbon, Portugal, before returning home. All told, the *TS Empire State VI* covered 16,125 nautical miles.

Back at Olivet Pier, the cadets were joyously and enthusiastically welcomed by family and friends under sunny skies on Monday, August 11.

CADET SHIPPING PROGRAM

During summer 2014, 75 students participated in the Cadet Shipping program, which is an alternative to Summer Sea Term.

VICTOR DEVESO '15
Regimental Commander
Marine Environmental Science
Hometown: Colden, New York

"There are 140 years of tradition that run through everyone and everything at this College. No matter who you talk to, whether they graduated 10 years ago or 60 years ago, we all are cast from the same mold. It's as if you had known them your entire life."

EDUCATIONAL OPPORTUNITY PROGRAM

RYAN McCABE '15

Facilities Engineering
Hometown: Rockaway Beach,
New York

"Maritime was my choice from among many great engineering schools. When you look at the abundance of hands-on training, as well as the deep learning experience in the classroom, the education here is superb."

Since its inception in 1967, the Educational Opportunity Program (EOP) has helped fulfill SUNY's policy of "... every student capable of completing a program of higher education shall have the opportunity to do so."

Thirteen first-year students successfully completed the five-week summer EOP program at Maritime College, where students attend classes in preparation for college life and earned credit toward their degrees.

EOP provides academic and financial support to New York State residents with a high school diploma, or its equivalent. The program serves students from a variety of circumstances that may present barriers to academic success. Most EOP students are first-generation college students.

This 2013-14 EOP class boasted three students joining the honor guard, three employed by the College's Learning Center, and many others getting involved with campus organizations. Twelve of thirteen EOP first-year students returned for their sophomore year; a 92 percent retention rate.

▲ *Maritime College's May 2014 Valedictorian, Oleksandyr Dmytruk, was a member of EOP. He earned a 3.89 grade point average as a Facilities Engineering major.*

A new turf was installed on **Reinhart Field**, which immediately improved the experience for all users.

The **Men's Swimming** team did it again and won its seventh consecutive Skyline Conference Championship.

Sailing – The **Intercollegiate Sailing Team** regained its Top-20 national ranking; the **Dinghy team** finished 3rd at the Middle Atlantic Intercollegiate Sailing Association Conference championship, the War Memorial Regatta; the **Offshore team** finished 3rd in the MacMillan Cup, held at the United States Naval Academy.

The College hosted a **Special Olympics New York swim meet**. Maritime was represented by more than 50 student-athlete volunteers from among the men's and women's swimming & diving teams, and the Student-Athlete Advisory Committee.

Women's Volleyball clinched its first-ever playoff berth in the Skyline Conference Tournament.

The **Baseball team** had two no-hitters thrown by its pitching staff; the first of which was a perfect game.

THE DONALD P. BRENNAN '61 SCHOLARSHIP *for* INTERNATIONAL BUSINESS

Established in 2004 for students who have exhibited high academic achievement, and who are interested in international business.

Marisela "Mary" Camano '15, is an International Trade and Transportation major who aspires to be both a businesswoman and to make a contribution to society through public service.

The Bronx native transferred to Maritime from Lehman College. Economics and logistics have long interested her. "I always was curious in knowing how items moved in a global economy; how things got from one place to another."

After graduation, Mary plans a graduate degree in international economics and development to add to her business skills. During her final semester she will intern with a NYC Council Member to explore her public service aspirations.

"The Donald P. Brennan Scholarship led me closer to my overall mission in life, which is to enhance my intellectual curiosity so that I am well prepared to make a difference in this globalized economy."

Donald P. Brennan '61 ►
with scholarship recipient
Marisela Camano.

THE CLASS OF '58 SCHOLARSHIP

Established in 2010 to provide needed financial assistance to regimental students who are pursuing a USCG license.

Daniel "Alex" Everett '15, is a non-traditional student who, before arriving at Maritime College, had already earned a bachelor's degree in English, completed a 14-week screenwriting course, and taught English as a second language in South Korea for two years.

His desire to travel the world, and a keen interest in studying 'how things work,' prompted him to enroll in Maritime College's Mechanical Engineering program. The Pound Ridge (Westchester County) resident is a recipient of the Class of '58 scholarship.

"Receiving the Class of '58 Scholarship has eased my financial burden and calmed my concerns of going back to college in pursuit of a career change," he notes. "I am grateful to the members of the Class of '58 for the confidence they have placed in me."

Alex looks forward to a career in the maritime industry, perhaps in surveying or inspecting, following his graduation in fall 2015.

THE CLAY MAITLAND ENDOWED SCHOLARSHIP *in* INTERNATIONAL TRANSPORTATION MANAGEMENT

Established in 2006 for the benefit of graduate students matriculating in the Master of Science degree program in International Transportation Management.

Pam Estrada '13, '15, earned an undergraduate degree in International Trade and Transportation from Maritime College in 2013. In January 2015, she will graduate with a Master's in International Transportation Management.

The Westbury, New York native came to Maritime with an associate degree from Nassau Community College, and an interest in international business and trade.

Pam works in operations, scheduling and logistics for The Plaza Marine Group, a provider of marine fuel products, docking facilities and strategic planning.

As a recipient of The Clay Maitland Endowed Scholarship in International Transportation Management, Pam is appreciative of the scholarship's financial assistance.

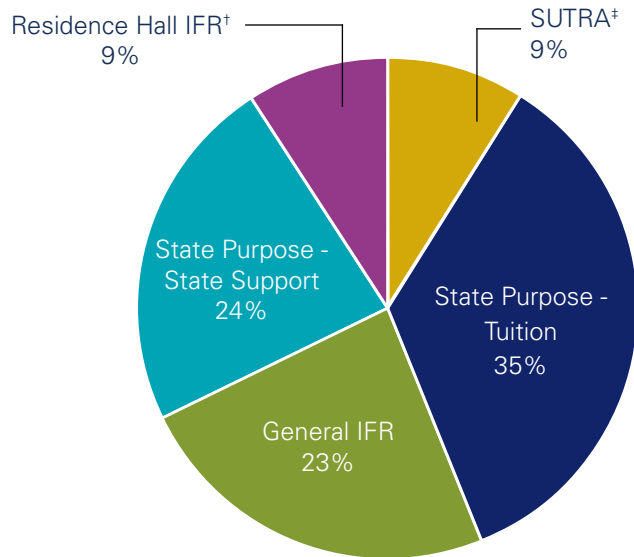

"The scholarship gave me the opportunity and the motivation to finish my master's degree. I want to thank Mr. Maitland for the opportunity and the support that he gives both to students, and to the College," Pam says.

FINANCIAL OVERVIEW

The following is the 2013-2014 fiscal year analysis of SUNY Maritime’s funding sources, expenses, residence hall operations and income fund reimbursables (IFR)*. The analysis of this data is key to understanding the fundamental financial components of the College.

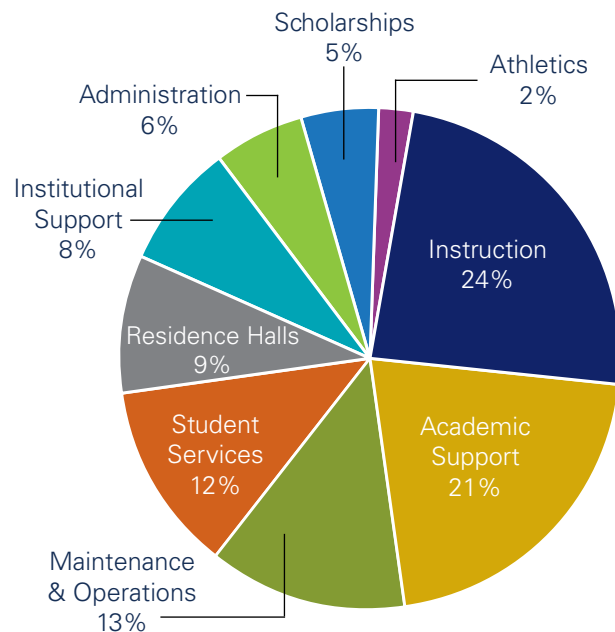

FUNDING SOURCES

State Purpose - Tuition	13,171,761
General IFR	8,854,886
State Purpose - State Support	8,851,800
Residence Hall IFR†	3,421,357
SUTRA‡	3,367,359
TOTAL	37,667,163

EXPENSES

Instruction	8,876,843
Academic Support	7,851,636
Maintenance & Operations	5,067,451
Student Services	4,515,763
Residence Halls	3,367,359
Institutional Support	3,212,890
Administration	2,213,317
Scholarships	1,706,515
Athletics	855,389
TOTAL	37,667,163

* Income Fund Reimbursable accounts are self-supporting; funded by revenues or fees, and dedicated to activities that support the campus’ mission.

† Residence Hall IFR - The State University of New York residence halls are operated under the Income Fund Reimbursable (IFR) system that requires all operating costs, fringe benefits and debt service costs of the residence halls be funded from income generated by the Residence Hall operation. The College has the capacity to house over 1,300 students within four residence halls. Students occupy the rooms during the fall and spring semesters. Camps and conferences utilize the residence halls during summer months.

‡ State University Tuition Reimbursement Account (SUTRA) is comprised of tuition and fee revenue from prior years that was collected in excess of the College’s enrollment targets, as well as summer ashore tuition revenue.

Admiral's Scholarship Dinner

Richard A. Angerame, Class of 1973, President and CEO of utiliVisor, and Morton S. Bouchard III, President and CEO of Bouchard Transportation Company, Inc. were honored at the annual Admiral's Scholarship Dinner on Tuesday, May 6. With more than 500 alumni, industry partners, friends, students, faculty and staff in attendance on campus, the sold-out event raised more than \$700,000 for student scholarships; a record amount.

Richard A. Angerame established utiliVisor over three decades ago. Today the company is a leading energy advisory firm that provides clients with comprehensive monitoring and metering solutions.

In addition to his successes in business, during the past several years, Mr. Angerame has been an extremely supportive friend of the College. His three sons (Timothy '00, Peter '04, and Christopher '06) were educated at Maritime College, and he has sponsored an annual scholarship to assist other students achieve their dreams.

Morton S. Bouchard III is the Bouchard family's fourth generation to manage Bouchard Transportation Company, Inc., the largest privately owned, ocean-going petroleum barge company in the United States. Bouchard Transportation has operations on the East and Gulf coasts of the United States, as well as in the Caribbean. Mr. Bouchard and Bouchard Transportation have been tremendous supporters of the College and students. Each year, the Morton S. Bouchard Jr. Memorial Scholarship is awarded to three students who demonstrate achievement and leadership abilities to successfully pursue careers in the petroleum barge industry. Furthermore, a donation in the amount of \$750,000 was made to establish the Bouchard Transportation Co., Inc. Tug and Barge Simulation Center.

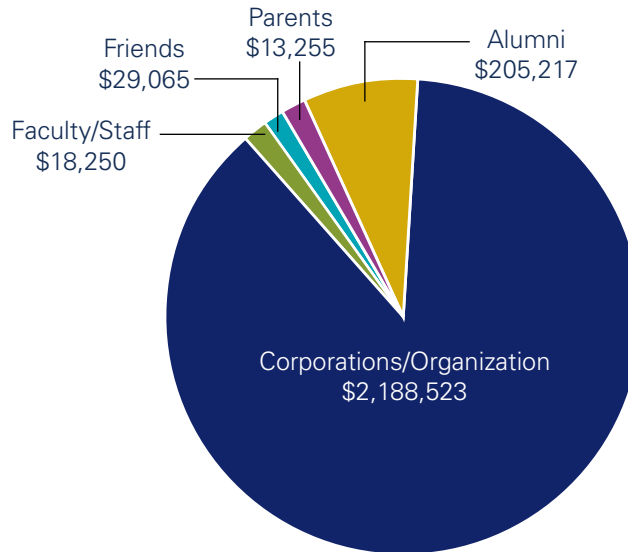

▲ (L to R): Morton S. Bouchard III, Interim President Michael Cappeto, Richard A. Angerame '73, and dinner emcee Jim Lawrence.

GIVING OPPORTUNITIES

ANNUAL GIFTS

An unrestricted gift to the Sallyport Fund gives the College the flexibility to use your gift where it is most needed -- for tuition and operational assistance, athletic and extra-curricular activities, faculty and staff enhancements, and educational programs. All gifts help attract the most talented students and faculty to SUNY Maritime, allowing the College to continue its long tradition of excellence. The Sallyport Fund provides incentives and the means for alumni, parents and friends to contribute private, tax-deductible gifts that will directly enhance the educational experience of the student body.

ADMIRAL'S COUNCIL

Individuals and companies who make annual gifts of \$1,000 or more will become members of the Admiral's Council. Each year, Admiral's Council members are invited to a special day at Maritime College where they have an opportunity to see and hear about the progress of the College, first-hand, from its leaders.

BUY A BRICK CAMPAIGN

Become a permanent part of the Maritime College landscape by purchasing a brick. For a minimum gift of \$1,000 the College will recognize your generous donation by placing an engraved commemorative brick on campus.

To make a gift on-line, logon to: www.sunymaritime.edu/sallyportfund

THE ADMIRAL'S SCHOLARSHIP DINNER

The Admiral's Scholarship Dinner, held annually in May, is the primary event to raise funds for student scholarships. Each year, distinguished alumni and friends are honored for their contributions to the College and to the industries they serve. The Admiral's Dinner is a wonderful opportunity to reconnect with classmates, network with industry leaders, and raise scholarship funds.

ADDITIONAL GIVING OPPORTUNITIES

MEMORIAL GIFTS

Gifts may be made to honor or memorialize a loved one, for a special intention, or a general need.

ESTATE AND PLANNED GIFTS

Alumni and friends support the College through planned gifts including bequests, gifts in trust, charitable remainder trusts and charitable gift annuities. Consider including Maritime College as a beneficiary in your will.

ENDOWMENT GIFTS

Named endowments may be established with gifts of \$25,000 or more. The principal of these funds is used to generate income for scholarships, department chairs or other program assistance of your choosing.

SCOTT SIENKIEWICZ '14

Hull Structures Engineer / Naval Architect
American Bureau of Shipping
Hometown: Berlin, Connecticut

"Maritime College's standards of honesty, integrity, moral courage and personal honor helped prepare me to be a professional, both in my appearance, as well as in my demeanor."

This list recognizes each gift given to the State University of New York Maritime College during the fiscal year July 1, 2013 through June 30, 2014. Contributions received on or after July 1, 2014 will be reported in the next Donor Report.

While every effort has been made to ensure the accuracy of information contained in this list, we regret any inadvertent omissions and thank all of our contributors for their generosity.

Thank You for your support!
