Platform Operator

United Riverhead Terminal, Inc.

JOB DESCRIPTION:

The platform operator is responsible for the safe, efficient, and quality-conscious unloading and loading of liquid petroleum products from storage tanks, and vessels. The position is divided into four main sections:

Receiving product:

- Confirm with terminal operator that the Facility can physically accommodate the receipt by ensuring there is space in the tanks
- Coordinate with sender to open receiving valves at commencement of tank or cargo movements
- For vessel, connect loading arms to vessel, monitor line integrity and confirm product is being received into the tank.
- Keep accurate paperwork and logs of vessel product movements

Other responsibilities:

- Sample petroleum products in tanks and vessels to ensure product quality.
- Communicate with management and other operators on a daily basis to hand down instructions to the next shift
- Perform all work in strict accordance with Environmental, Health, and Safety policies and procedures, United Riverhead operating policies, procedures, checklists, and written instructions
- Perform miscellaneous duties of Facility maintenance and upkeep: e.g. collect trash, empty barrels, sweep, mop floors, mow grass, paint etc.

JOB REQUIREMENTS:

- Previous tank terminal and marine experience is desired
- Must possess a valid NYS driver’s license
- Must demonstrate aptitude to execute orders, perform math computations, maintain and organize records, and understand inventory management & reconciliation so as to satisfy the customer
- Must be fluent in English
- Must be willing to: climb tank stairs, gangways, gauge tanks, open/close valves, operate pumps, work within confined spaces and at heights of up to 60’, and perform shift work
- Be able to lift a minimum of 50 lbs.
- Be able to work offshore for 12 hour shifts
- Be able to work on a 60’ launch boat in inclement weather for 12 hours shifts
- Must be able to open and close various size valves from 2” to 36”
- Ability to operate forklift or other equipment is desired
- Must obtain TWIC before starting position
